## GONE TO THE ISLAND.

To Determine the Championship in Pugilism.

By Associated Press to the Journal. New York, Nov. 3.—Jeffries, the champion pugilist, this morning wrote telegrams informing his friends that his condition was better than when he met Fitzsimmons. All of Jeffries' trainers consider him perfect and are confident that he will whip Sharkey. Billy Delaney says that he sees no possibility of Jeffries' defeat.

Sharkey got up at 6 o'clock this morning and ate his breakfast. Sharkey said he felt in prime condition and was confident as ever that he would win. During the forenoon Sharkey and Jeffries left their respective training quarters for Coney Island. [Detailed information for sportsmen on third page.]

## A MONMOUTH MAN.

Exasperated by Hallowe'en Frights, He Does Some Shooting.

Hallowe'en pranks were carried so far in Monmouth this year as to cause much inconvenience to many of the residents. The boys severely tantalized J. H. Haskins, one of the merchants of Monmouth, into a fit of exasperation which might have cost some of their lives, and the culmination of which was a hearing on Saturday before Justice Irving.

It seems he shot into a lot of boys playing Hallowe'en pranks but not injuring any of them. He shot supposedly, only to scare them, the boys scattered and escaped him. The next day, however, he again got after some of the boys with his shotgun and followed them into Frank Fischer's confectionery store when he was confronted by a revolver in the hands of Mr. Fischer, when the gun was taken away from him and he went home and secured a revolver and again proceeded to hunt the boys, but a warrant was sworn out for his arrest. The case will be decided Saturday.

## THE HOP MARKET.

Information From All Sources Indicates a Firmer Market.

Bear Influences Would Convey the Idea That the English Product is Sufficient for Home Consumption.

## The New York Crop.

Watersville Times, Oct. 27:

Hops are moving off slowly, but steadily at from 9 to 11c this week. In certain neighborhoods they have nearly all been marketed and those who are counting on a large surplus of hops in the growers' hands will learn later that they are mistaken. Among the sales since our last are: Seabury Allen, 50 bales at 8c; Brockett and Finnegan, 150 at 10c; J. S. Gridley, 25 at 10c; J. Han-nahs, 35 bales '98 at a little less than 7c; Wm. Smith, 56 at 11c; Edward Locks, 25 at 10c; David Gaylord, 25 at 10c. That is about the way they run according to quality.

Producer's Price Current, Oct. 21:

There has been a somewhat improved business this week, brewers showing more interest than at any time since the opening of the season. The fact is that brewers were misled by the early offers to supply them with fine quality hops at about 10 @ 11c. More doing in the interior of this state, and about all of the purchases were for home trade; the sales show wide range according to quality, say from 7 to 11 1/2c with 12c refused for a few choice growths in the best sections of the State. Out in Oregon growers' ideas of values are generally above what our dealers consider the hops worth, and only a little business has resulted at 7 @ 11c. About the same conditions exist in California; in the Sonoma district growers take a very confident view of the situation. According to latest London mail advices the small proportion of high class hops is making a firm market for such, while the abundance of low grades is depressing prices for these. It is generally conceded that the English crop is upward of £300,000 old duty.

English Markets, Crops and Prospects.

Lopdini in Mark Lane Express.

The Borough hop market remains in a most unsatisfactory condition. Growers are especially disappointed, as they cannot get on with their business without making such sacrifices as are not called for by the actual position of affairs, and buyers are annoyed because they fail to induce sellers to yield to the pressure, by which they are endeavoring to lower the legitimate value of hops. There are, of course, exceptions to be found, when bright color samples or growth of noted planters are on offer.

The Worcester hop market has resembled the Borough in the slowness of sale and depressed values of secondary qualities, and the firmness of prices and good demand for fine and bright samples.

Foreign trade is not yet very active on the English market. Some parcels have been received from the Continent, but the shippers are only sending us their inferior qualities, as the home demand is fully sufficient for the absorption of all the best growths. Values are fairly firm, and as there is now no practical margin of advantage in price between the best Californians and good English it appears likely that importations will be small this season.

LONDON, Oct. 17.—A little more activity prevails and some large growers are beginning to sell portions of their supplies. Wealds and mid Kents of superior and good conditioned growths have been cleared to a large extent, and those left over realize full prices. A somewhat improved demand is noticeable for good sound medium grades, but very low and discolored kinds remain most difficult of sale. General quotations range as follows: East Kent, 50s to 105s; Wealds, 60s to 92s; Sussex, 50s to 90s; and Worcesters and Farnhams, 50s to 110s. Continentals are slow for mismanaged growths, but fine and sound hops are held for high prices.

Wealds and mid Kents of superior and good conditioned growths have been cleared to a large extent, and those left over realize full prices. A somewhat improved demand is noticeable for good sound medium grades, but very low and discolored kinds remain most difficult of sale. General quotations range as follows: East Kent, 50s to 105s; Wealds, 60s to 92s; Sussex, 50s to 90s; and Worcesters and Farnhams, 50s to 110s. Continentals are slow for mismanaged growths, but fine and sound hops are held for high prices.

LONDON, Oct. 17.—A little more activity prevails and some large growers are beginning to sell portions of their supplies.
